

Naples & Everglades National Park Escape Encore Symposium: April 22-25, 2024
Learner Assessment and Program Evaluation

Name: _____

AANA ID#: _____

Indicate your level of achievement for each learner objective on the rating scale.

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

Rating
1 to 5

Lecture 01 - Trauma in the OR: Local and Abroad - R. Shores

Discuss evidence-based practices of anesthesia care of the trauma patient including fluid management, pharmacologic agents using tranexamic acid (TXA), and adjunct anesthesia medications.

Overall rating of topic and facilitator during this lecture.

Lecture 02 - Anesthesia Care for Endocrine Patients: Soup to Nuts, What you Need to Know - M. Talon

Define most common endocrine disorders and key anesthetic management considerations including pharmacologic agents and anesthesia management contents.

Overall rating of topic and facilitator during this lecture.

Lecture 03 - Under Pressure: Review on Antihypertensive Management - K. Meuti

Review pathophysiology of hypertension.

Understand the pharmacokinetics and pharmacodynamics of commonly used antihypertensive agents.

Describe the anesthetic considerations for common antihypertensives.

Overall rating of topic and facilitator during this lecture.

Lecture 04 - Age Related Considerations - S. Wooden

Define pharmacokinetic and pharmacodynamic considerations in perioperative anesthesia care for the extremes of ages including neonates and geriatric patients.

Overall rating of topic and facilitator during this lecture.

Lecture 05 - Anesthesia Induction Agents: A Review of the Fundamentals - D. Bent

Discuss anesthesia induction medications including pharmacodynamic and pharmacokinetic properties and appropriate patient selection for use intraoperatively.

Overall rating of topic and facilitator during this lecture.

Lecture 06 - How to Manage Cardiac Valvular Disorder Patients Safely - K. Westra

Discuss the hemodynamic and pharmacological management of aortic stenosis and mitral valve regurgitation including vasoactive infusions.

Overall rating of topic and facilitator during this lecture.

Lecture 07 - Exparel in Peripheral Nerve Blocks and Plane Nerve Blocks - S. Wooden

Define the mechanism of action including pharmacokinetics for Exparel and peripheral nerve blocks and plane nerve blocks for anesthesia care.

Overall rating of topic and facilitator during this lecture.

Lectures 08 - Pediatric Update and Review - D. Bent

Discuss the physiological and pharmacological considerations for pediatric patients in the perioperative care setting including airway management and anesthesia medications.

Overall rating of topic and facilitator during this lecture.

Indicate your level of achievement for each learner objective on the rating scale.

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

Rating 1 to 5

Lectures 09 - Malignant Hyperthermia: Everything You Need to Know - D. Bent

Discuss medication and inhalational anesthesia agents that trigger malignant hyperthermia and the medications indicated for the immediate treatment of Malignant Hyperthermia in Perioperative
Overall rating of topic and facilitator during this lecture.

Lectures 10 - OB Anesthesia Care: Critical Anesthesia Scenarios - K. Westra

Discuss the key anesthesia considerations for placental abruption and maternal hemorrhage including fluid resuscitation, pharmacological medication management with Tranexamic Acid and Vasoactive medications with mechanism of actions.
Overall rating of topic and facilitator during this lecture.

Lecture 11 - SOS: Stop the Stress: Building Resiliency in a World Full of Stress - K. Meuti

Examine the neurophysiology of stress and how the brain adapts during stressful times.
Describe methods of building resiliency and how to apply these at home and the workplace.
Overall rating of topic and facilitator during this lecture.

Lecture 12 - Anesthetizing Elderly Patients: What Medications to Avoid in this Growing Population -

Understand pharmacokinetic changes in the elderly.
Identify which anesthetic agents are safe.
Examine which common agents should be avoided.
Overall rating of topic and facilitator during this lecture.

Lectures 13 - The Business of Anesthesia: Are You Valuable? - K. Westra

Discuss the difference between 1099 independent contractors and W2 employed individuals including tax implications, short-and long-term financial strategy and planning.
Overall rating of topic and facilitator during this lecture.

Lectures 14 - A Potpourri of Hybrid Room Cases: What's New? - K. Westra

Discuss the key anesthetic considerations for TCAR and Neurovascular procedures in the Hybrid room including pharmacological medications and hemodynamic considerations.
Overall rating of topic and facilitator during this lecture.

Lecture 15 - Dexmedetomidine: The Good, The Great, The Ugly - K. Meuti

Describe the pharmacology of dexmedetomidine.
Identify strategies of proper perioperative administration of dexmedetomidine.
Overall rating of topic and facilitator during this lecture.

Lecture 16 - Failure to Treat Pain - S. Wooden

Discuss the pharmacokinetic and pharmacodynamics of opioid pain medications in perioperative anesthesia care including risks and benefits.
Overall rating of topic and facilitator during this lecture.

Lecture 17 - Neuromonitoring Fundamentals - Physiology, Pharmacology: A Case Study - D. Bent

Discuss anesthesia intravenous medications/ infusions used for neuromonitoring procedures and the evidence-based rationale for use in neuromonitoring cases.
Overall rating of topic and facilitator during this lecture.

Indicate your level of achievement for each learner objective on the rating scale.

Rating

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

1 to 5

Lecture 18 - Bonus Credit: NBCRNA / CPC (Continued Professional Certification) Update - C. Gill & J.

Describe anesthesia credentialing and current trends in continued competence.
Describe the background and rationale for the CPC program for nurse anesthetists.
List the components of the NBCRNA CPC program for nurse anesthetists.
Describe the timeline for implementation of the NBCRNA CPC program for nurse anesthetists.
Overall rating of topic and facilitator during this lecture.

Lecture 19 - Keep the Current: Review on Arrhythmias and Antiarrhythmic Agents - K. Meuti

Identify different types of arrhythmias.
Describe different antiarrhythmic medications and compare the pharmacodynamic principles.
Overall rating of topic and facilitator during this lecture.

Lecture 20 - How to Approach Administrators: Negotiating with Administration, Rights and

Explain the difference between a passthrough hospital and a critical access hospital.
Discuss the IRS guidelines that differentiate between an employee and a contractor.
Overall rating of topic and facilitator during this lecture.

Lecture 21 - I Have Been Sued, What Now?: What Should I Expect - S. Wooden

Define the four components of a medical malpractice suit.
Define the role of a medical malpractice expert witness.
Overall rating of topic and facilitator during this lecture.

Lecture 22 - Pediatric Pain Management: A Closer Look - D. Bent

Discuss the pharmacodynamic and pharmacokinetics of pediatric pain management including multi modal anesthesia medications.
Overall rating of topic and facilitator during this lecture.

Lecture 23 - PONV: An Age-Old Problem with New Evidence-Based Recommendations - K. Westra

Discuss current evidence-based recommendations for PONV medications including pharmacokinetics and mechanism of actions for several antiemetic medications.
Overall rating of topic and facilitator during this lecture.

Overall Assessment

Indicate your level of achievement for each statement on the rating scale.

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

Rating 1 to 5

The facilitators were effective in presenting the material.

Teaching methods were effective.

The program content was related to the objectives.

My personal learning objectives were met.

Physical facilities facilitated learning.

State one item you learned that will improve your nurse anesthesia practice.

State any barriers to implement this change.

What future topics would you like presented?
