

Charleston Harbor-Front Sanctuary by Encore Symposiums: June 4-7, 2018

Learner Assessment and Program Evaluation

Name: _____

AANA ID#: _____

Indicate your level of achievement for each learner objective on the rating scale.

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

Rating
1 to 5

Lecture 01 - Anesthesia Airway Emergencies - B. Howie

Discuss strategies to prevent adverse patient outcomes when faced with: An unrecognized difficult airway, an acutely injured trauma patient, a patient at risk for aspiration, a patient at risk for an airway fire, a patient with an airway obstruction, and an unintended endobronchial intubation.

Describe several methods to emergently perform a Cricothyroidotomy in a can't intubate can't ventilate scenario.

Overall rating of topic and facilitator during this lecture.

Lecture 02 - Adult Cases in Anesthesia: An Update - P. McMullen

Describe areas where CRNAs have encountered legal liability.

Apply knowledge of anesthesia principles to selected legal cases.

Discuss principles to avoid a lawsuit, while improving the quality of patient care.

Overall rating of topic and facilitator during this lecture.

Lecture 03 - Challenges in the Administration of Blood Products - B. Howie

Explain the major risks associated with blood transfusion.

Define the concept of transfusion acquired lung injury (TRALI).

List appropriate steps to treat a given blood reaction.

Describe strategies to minimize the risk of blood product associated complications.

Overall rating of topic and facilitator during this lecture.

Lecture 04 - The Power of the Placebo - M. Zinder

List the uses of the placebo and how it relates to patient outcomes.

Overall rating of topic and facilitator during this lecture.

Lecture 05 -Occupational Hazards of the OR - R. Shores

Identify potential occupational hazards facing anesthetists.

Introduce conceptual knowledge regarding scientific concepts.

Provide regulatory mandates of pertinent agencies.

Identify strategies for protection.

Overall rating of topic and facilitator during this lecture.

Lecture 06 - NBCRNA Continued Professional Certification (CPC) Program Presentation - T. Wicks

Describe the background and rationale for the CPC program for nurse anesthetists.

Describe the components of the NBCRNA CPC program for nurse anesthetists.

Describe the timeline for implementation of the NBCRNA CPC program for nurse anesthetists.

Overall rating of topic and facilitator during this lecture.

Indicate your level of achievement for each learner objective on the rating scale.

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

Rating

1 to 5

Lecture 07 - Pharmacologic Review: Latest and Greatest? in Anesthesia - R. Shores

Identify and review implications of newer anesthetic medications.

Identify and review implications of newer medications with anesthetic complications.

Overall rating of topic and facilitator during this lecture.

Lecture 08 - Select Anesthesia Emergencies - B. Howie

Define hypertension and hypotension in the perioperative period.

List the common and concerning symptoms of hypertension and hypotension.

Delineate differential diagnosis of hyper and hypotension.

Describe the optimal treatment of perioperative hypertension and hypotension.

Overall rating of topic and facilitator during this lecture.

Lecture 09 - Preparing for Testimony: A Tutorial for CRNAs - P. McMullen

Explain the process of deposition and trial testimony.

Describe important ways to prepare for testimony.

Participate in a Mock Deposition.

Overall rating of topic and facilitator during this lecture.

Lecture 10 - Current Laser Therapy: Anesthetic & Safety Considerations - R. Shores

Review scientific foundations of lasers.

Describe current perioperative lasers.

Identify potential hazards of lasers.

Review safety precautions.

Discuss anesthetic implications for patients undergoing laser therapy.

Overall rating of topic and facilitator during this lecture.

Lecture 11 & 12 - Updates to the Business of Anesthesia - M. Zinder

Describe the concept of meaningful use.

Explain your understanding of the PQRS system.

Describe the current state of the ICD-10.

Overall rating of topic and facilitator during this lecture.

Lecture 13 - Hypothermia: Incidence, Implications, Interventions - R. Shores

Review concepts of heat production, loss, and conservation.

Provide data regarding the incidence of perioperative hypothermia.

Describe physiologic and anesthetic implications of hypothermia.

Provide strategies and intervention to prevent perioperative hypothermia.

Overall rating of topic and facilitator during this lecture.

Lecture 14 - PTSD and How it Affects us as Anesthesia Providers - M. Zinder

Describe how a patient with PTSD affects how their anesthetic is performed and its possible outcomes.

Overall rating of topic and facilitator during this lecture.

Indicate your level of achievement for each learner objective on the rating scale.

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

Rating

1 to 5

Lecture 15 - Local Anesthetic Toxicity - B. Howie

Explain the basic pathophysiology of local anesthetic toxicity.

List the common signs and symptoms of local anesthetic toxicity.

Apply knowledge of Intravenous Lipid Emulsion therapy as a protocol to treat toxicity of local anesthesia.

Construct evidence-based strategies to avoid the occurrence of local anesthetic toxicity in anesthesia practice.

Overall rating of topic and facilitator during this lecture.

Lecture 16 - The Process of a Malpractice Suit - P. McMullen

Delineate key elements of malpractice.

Explain the concepts of negligence, defenses to negligence, statute of limitations.

Utilize knowledge of legal principles in analyzing key case studies.

Overall rating of topic and facilitator during this lecture.

Lecture 17 - Trauma Resuscitation in the OR - R. Shores

Review trauma statistics and evaluation.

Identify the role the military has played in the development of resuscitation guidelines.

Review pathophysiological phenomena during hemorrhagic trauma.

Present current evidence on resuscitation strategies for trauma resuscitation.

Overall rating of topic and facilitator during this lecture.

Lecture 18 - Stress Management for Healthcare Providers - M. Zinder

Describe the long-term effects of stress on one's health.

Identify and describe strategies for decreasing stress.

Overall rating of topic and facilitator during this lecture.

Lecture 19 - Patient Positioning: Injury Awareness and Prevention - M. Zinder

Identify the role and responsibility of the anesthesia provider in patient positioning.

Describe the complications associated with improper patient positioning.

Describe the physiological changes that occur with the various positions.

Overall rating of topic and facilitator during this lecture.

Lecture 20 - Use of Low Flow Anesthesia: Implications on Cost, Waste & Environmental Issues - R. Shores

Review pharmacological properties of Inhalation agents.

Review Uptake and Distribution basics.

Review anesthesia machine basics.

Identify inhalation agent costs.

Discuss strategies to reduce inhalation agent costs.

Provide results of available data regarding cost savings strategies.

Overall rating of topic and facilitator during this lecture.

Indicate your level of achievement for each learner objective on the rating scale.

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

Rating

1 to 5

Lecture 21 - Anesthesia & Aviation: Lessons Learned from Our Unexpected Colleagues - M. Zinder

Compare and contrast aviation and anesthesia in regard to the steps that are taken to increase safety.

Overall rating of topic and facilitator during this lecture.

Lecture 22 - Anesthesia Controversies - B. Howie

Describe the controversy that surrounds topics such as the use of cricoid pressure, the timing of muscle relaxant administration to facilitate ease of mask ventilation, monitoring of neuromuscular blockade and reversal, agents used to reverse NMB, and optimal pre oxygenation for obese.

Compare and contrast robotic versus open procedures and robotic anesthesia versus human provider.

Explain how CRNA anesthesia practice will change after participation in this presentation.

Overall rating of topic and facilitator during this lecture.

Lecture 23 - Legal Jeopardy - P. McMullen

Apply knowledge of key legal concepts to selected CRNA scenarios.

Overall rating of topic and facilitator during this lecture.

Overall Assessment

Indicate your level of achievement for each statement on the rating scale.

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

Rating

1 to 5

The facilitators were effective in presenting the material.

--

Teaching methods were effective.

--

The program content was related to the objectives.

--

My personal learning objectives were met.

--

Physical facilities facilitated learning.

--

State one item you learned that will improve your nurse anesthesia practice.

State any barriers to implement this change.

What future topics would you like presented?
