

Cape Cod Weekend Encore Pharmacology CPC Review: September 18-19, 2021
Learner Assessment and Program Evaluation

Name: _____

AANA ID#: _____

Indicate your level of achievement for each learner objective on the rating scale.

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

Rating
1 to 5

Lecture 01 - Recurarization, Inadequate Reversal, Muscle Relaxants, Reversal Agents and Anticholinergics - T. Wicks

List and identify current evidenced based recommendations for taking care of the patient with recurarization, inadequate reversal, muscle relaxants, reversal agents and anticholinergics.

Overall rating of topic and facilitator during this lecture.

Lecture 02 - Local Anesthesia, Lipid Rescue, IV Fluids, Electrolyte and Blood Component - T. Wicks

List and identify current evidenced based recommendations for taking care of the patient exposed to local anesthesia, lipid rescue, IV fluids, electrolyte, and blood components.

Overall rating of topic and facilitator during this lecture.

Lecture 03 - Beta Blockers, Antihypertensive, Inotropic Agents - T. Wicks

List and identify current evidenced based recommendations for taking care of the patient receiving beta blockers, antihypertensive, and inotropic agents.

Overall rating of topic and facilitator during this lecture.

Lecture 04 - Anxiolytics, Opioids, Induction Agents, Inhaled Anesthetics - T. Wicks

List and identify current evidenced based recommendations for taking care of the patient exposed to anxiolytics, opioids, induction agents, and inhaled anesthetics.

Overall rating of topic and facilitator during this lecture.

Lecture 05 - Insulin and Oral Hypoglycemic Agents, Vasoconstrictors - T. Wicks

List and identify current evidenced based recommendations for taking care of the patient using insulin and oral hypoglycemic agents, and vasoconstrictors.

Overall rating of topic and facilitator during this lecture.

--

Lecture 06 - Anti-Emetics, Non-Opioid Pain Management, Reversal Agents Beyond for Paralytics - T. Wicks

List and identify current evidenced based recommendations for taking care of the patient that will be exposed anti-emetics, non-opioid pain management, reversal agents for paralytics.

Overall rating of topic and facilitator during this lecture.

Lecture 07 - Anaphylaxis, Self-administered Medications (e.g. OTC, Herbal, Illegal) Psychiatric - T. Wicks

List and identify current evidenced based recommendations for taking care of the patient during anaphylaxis, and using self-administered medications (e.g. OTC, Herbal, Illegal) psychiatric medication.

Overall rating of topic and facilitator during this lecture.

Lecture 08 - Anticoagulants, Bronchodilators, Diuretics - T. Wicks

List and identify current evidenced based recommendations for taking care of the patient receiving anticoagulants, bronchodilators, and diuretics.

Overall rating of topic and facilitator during this lecture.

Overall Assessment

Rating 1 to 5

Indicate your level of achievement for each statement on the rating scale.

Rate on the following scale: 1=Poor, 2=Below Average, 3=Average, 4=Above Average, 5=Excellent

The facilitator was effective in presenting the material.

Teaching methods were effective.

The program content was related to the objectives.

My personal learning objectives were met.

Physical facilities facilitated learning.

State one item you learned that will improve your nurse anesthesia practice.

State any barriers to implement this change.

What future topics would you like presented?
